

Sample Conscientious Retraction

I, John Doe, hereby submit this conscientious retraction for an act of cheating that I committed on October 1, 2021. On this date, I was taking a CHEM 2465 exam in the Chemistry Building, and during that exam, I forgot an entire concept that I had failed to study the prior night. I panicked, and glanced at the exam of the person next to me (whose name I do not know). Unable to un-see the answer, I wrote it down on my own test to answer questions in part B. I realize that this is cheating, and I have contacted the course instructor, Professor Lewis, to admit this to her. She has decided to give me no credit for the portion of the exam on which I cheated.
